

Fort Eustis Small Game/Predator Hunting Map

Legend

- Small Game Areas
- Waterfowl Hunters (Hazard)
- Hunter Parking
- Handicapped Parking
- Roads
- No Hunting Areas

Small game and predator hunting is co-authorized with waterfowl hunting for a portion of the season. Small game hunters must use extreme caution while hunting as waterfowl hunters may be nearby or transitioning through a training area. Waterfowl hazards are identified by the red points and ponds.

Small game hunters are permitted to hunt one SG area at a time. They may move between SG areas by checking out of one SG and into the next SG before entering.

Small game dogs must be leashed immediately before leaving an SG. If dogs enter an area not available for hunting, SFS must be notified prior to entry.

Hunters may not possess a weapon while recovering dogs.

One hunter must check in all guests in the party. The hunter who checks in the party is responsible for submitting harvest data for everyone in the party. Failure to submit required harvest data will result in penalties IAW JBLE I 32-102.
